FINAL PHOTO GRADE: 10 – GEM MINT

Cam Schlittler | 2026 Topps Chrome | X-Fractor | #262 RC

Certification: SAI-2026-CS-1015-001
Finalized: October 15, 2026
Review basis: 10 submitted photographs; no in-hand examination
Photo-review confidence: Moderate

CENTERING - 10

Front appears well balanced with no obvious significant shift. Camera perspective and the asymmetric design prevent a calibrated centering ratio.

CORNERS - 10

Front corner close-ups appear sharp, with no confirmed bend or exposed white fibers. The back is shown in one overall view; fine back-corner detail is limited.

EDGES - 10

No obvious chipping, fraying, or layer separation is visible in the supplied views.

SURFACE - 10

No obvious scratches, print lines, dents, or dimples are visible across the supplied angles. The owner reports no obvious surface issues; reflective foil patterns are not treated as damage.

ASSESSMENT LIMITS

This finalizes a SlabAI 10 Gem Mint photo-based condition opinion. SlabAI authenticates the card as the item represented in the submitted photographs; this does not establish physical authenticity or exclude hidden defects or alterations. Fine back-corner detail is limited. Another grading company may reach a different result.

PERMANENT VERIFICATION
