ACCURATE. OBJECTIVE. UNBIASED.

FINAL PHOTO GRADE: 9.0 - MINT

Fernando Mendoza | 2026 Bowman Chrome | Rookie Card #BCY-101

Certification: SAI-2026-FM-1002-001

Assessment finalized October 2, 2026 | 14 submitted images

CENTERING

Slight apparent front border imbalance; camera perspective prevents a precise ratio. Back appears reasonably centered.

CORNERS

Front corners appear sharp, without obvious bends or significant rounding. Back corners were assessed only from the full-back image.

EDGES

Possible minor edge roughness in front close-ups. Chrome reflections prevent confidently identifying every bright spot as wear.

SURFACE

Scattered specks and a small bright mark near the upper-left corner remain unresolved. The earlier faint line beside the torso is not consistently visible and is not a confirmed scratch.

ASSESSMENT LIMITS

This finalizes the conservative image-based condition opinion. Unresolved marks are not confirmed defects. Photographs cannot establish authenticity or reveal every hidden scratch, dimple, or alteration. No in-hand inspection was performed, and another grader may reach a different result.

PERMANENT VERIFICATION
