### Condition assessment

| | | |
|---|---|---|
| **Centering** | **10** | Appears well balanced; angled photographs do not support a calibrated ratio. |
| **Corners** | **10** | Visible corners appear sharp; owner confirms flawless condition in hand. |
| **Edges** | **10** | No visible chipping or fraying; owner confirms flawless condition in hand. |
| **Surface** | **10** | No confirmed scratches or print lines visible; foil glare limits fine surface review. |

### Review basis

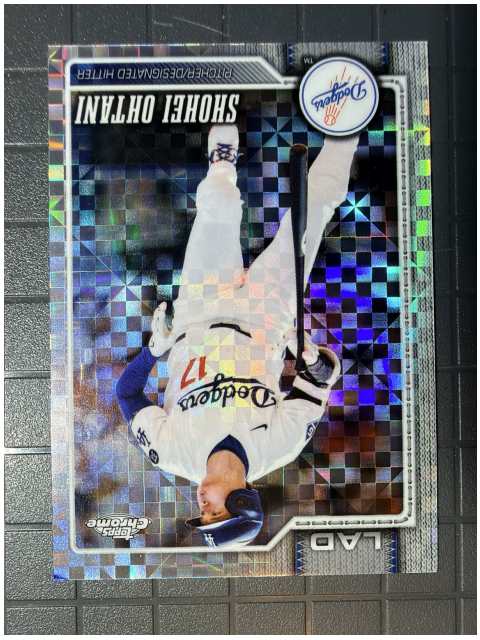

Eight photographs were reviewed. The owner states that the card is flawless and confirms its condition in hand. The submitted images show strong overall presentation with no clearly visible corner, edge, or surface defect. This is a photo-based SlabAI opinion. SlabAI did not physically examine the card; foil reflections limit close surface verification. The grade records the condition represented by the submitted images and owner statement.

**CERTIFICATION STATEMENT**

SlabAI records the card shown in the submitted photographs and provides an independent, photo-based condition opinion. This is not an in-hand examination or a guarantee of another grading company result. Hidden defects or alterations may require physical inspection.
